Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

Information in this presentation may contain “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as “may,” “will,” “should,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “projects,” or “potential” or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters.

All statements regarding our future performance, earnings projections, events or developments are forward-looking statements. These forward-looking statements are made based on known events and circumstances at the time of release, and as such, are subject in the future to unforeseen uncertainties and risks that could cause actual results to differ materially from those contained in any forward-looking statement. Such risks and uncertainties are described under “Risk Factors” in Item 1A of our annual report on Form 10-K and any updates to those factors set forth in our subsequent quarterly reports on Form 10-Q or current reports on Form 8-K. We make these statements as of the date of this disclosure, and undertake no obligation to update them unless otherwise required by law.

- Outstanding Culture and Values
We Win with Unique Competitive Advantages

Common across our businesses

Core Competencies
- Application development
- Precision manufacturing
- Engineering strength
- Technical expertise
- Direct global sales and service
- Customer “touch” / solutions provider

Strategic Assets
- Customer relationships with leaders
- Product breadth
- Technology position
- Premier brand reputation
- Large installed product base
- Global footprint (distribution, support)
- Balance sheet / ability to scale production

Customer Value Proposition
- Product reliability = more uptime
- Speed = greater productivity and yield
- Efficiency = lower material usage
- Leading product features = ease of operation
- Unmatched global support

Lower Cost of Ownership
Every Day You Experience the Value We Bring

Adhesive Dispensing Systems: consumer non-durable market focus

Advanced Technology Systems: electronics, medical and industrial market focus

Industrial Coating Systems: durable goods and industrial market focus
Adhesive Dispensing Systems
Leader in recession-resistant, consumer non-durable end markets
Targeted organic growth rate: 1.5 to 2x global GDP

2012-17 Sales CAGR = 6.0%
2012-17 average annual operating margin = 26.6%

What we do: Products to melt, filter, pump, transport, dispense and deposit adhesives, polymers and other materials in the manufacturing of a wide range of goods.

Growth Drivers
- Increased use of disposable hygiene products (diapers, fem care, etc)
- Increased use of packaged convenience foods
- Increased use of plastics
- Emerging markets
- Product tiering
- Recapitalization of large installed base
- Productivity investments
- Material, machinery and process innovations

Key End Markets
- Food and beverage packaging
- Nonwovens / disposable hygiene / diapers
- Furniture and building products
- Macro electronics
- General industrial assembly
- Alternative energy
- Medical devices
- Labeling
- Transportation
Advanced Technology Systems
Leader in rapidly growing electronics, medical and related markets
Targeted organic growth rate: 2 to 3x global GDP

What we do: Precision dispensing, fluid management, test, inspection and surface treatment products for electronics, medical and general industrial markets

2012-17 Sales CAGR = 11.7%
2012-17 average annual operating margin = 24.1%

Growth Drivers
- Mobile computing – smart phones, tablets
- Circuit shrinkage / new architectures / flip chips
- Medical needs driven by aging population
- Medical OEM outsourcing
- New consumers in emerging markets
- Product tiering
- Internet of things

Key End Markets
- Semiconductor packaging
- Printed circuit board assembly
- General electronic assembly
- Medical devices
- Medical components
- General industrial assembly
- Automotive electronics
- MEMS, sensors, LEDs
- Solar

21
Industrial Coating Systems
Leader in consumer durable goods and industrial end markets
Targeted organic growth rate: global GDP+

2012-17 Sales CAGR = 3.9%
2012-17 average annual operating margin = 15.5%

What we do: Precision equipment and systems to apply and cure paints, sealants, coatings, cold materials and other materials to a wide range of products

Growth Drivers
- Growth in emerging markets
- Environmental advantages of powder coatings
- Glues replacing mechanical fasteners
- Light-weighting of vehicles
- Productivity investments
- Lean manufacturing
- Quick color change
- Product tiering

Key End Markets
- Appliances
- Lawn and garden
- Food and beverage
- Automotive assembly
- Cold material dispensing
- Pipe coating and construction
- Woodworking
- General industrial
- Electronics / UV curing

- Americas reporting includes Canada, but not US
- Asia Pacific excludes Japan
- Eastern Europe, Middle East and Africa are reported in Europe and not broken out separately
New Applications Drive Organic Growth
Leveraging our expertise – numerous emerging opportunities over last five years

- Sensor assembly
- LED assembly
- MEMS assembly
- Wafer level inspection
- Wearable electronics
- Micro-materials testing
- Aerospace assembly
- Biopharmaceuticals
- Orthobiologics
- Minimally invasive catheters
- Bottle labeling
- Pipe coating
- Flexible packaging
Recapitalization Drives Organic Growth

Large installed base of Nordson products worldwide provides regular replacement and upgrade opportunities

- Packaging lines
- Nonwovens lines
- Powder coating lines
- Extrusion & injection molding lines
- Electronics assembly lines
Acquisitions Drive Growth
High quality properties supplement organic growth

2007–2017: 4.4% average annual growth from acquisitions

EBITDA and EBITDA per diluted share are non-GAAP financial measures used by management to evaluate the Company’s ongoing operations. EBITDA is defined as earnings before interest, taxes, depreciation and amortization and EBITDA As Adjusted is defined as EBITDA plus certain acquisition costs and adjustments. EBITDA per diluted share is defined as EBITDA divided by the Company’s diluted weighted average shares outstanding. EBITDA As Adjusted per diluted share is defined as EBITDA As Adjusted divided by the Company’s diluted weighted average shares outstanding.

Adjusted EPS is not a measurement of financial performance under GAAP, and should not be considered as an alternative to EPS determined in accordance with GAAP. Management believes that EPS as adjusted to exclude the items in the table above assist in understanding the results of Nordson Corporation. Our calculations of non-GAAP measures may not be comparable to the calculations of similarly titled measures reported by other companies. Amounts may not add due to rounding.
