LA 310 Piston Pump Systems

Efficient pump systems provide consistent delivery of liquid adhesives and maximize production flexibility.

LA 310 piston pumps:
- Offer compact assembly on a stainless steel lid or as wall mount version for production flexibility
- Reliably provide constant adhesive pressure
- In combination with Nordson LA 380 pressure regulators, maintain consistent adhesive supply even during machine speed changes

Nordson LA 310 dual-acting piston pumps offer flexibility and consistent flow rates of liquid adhesives in folding carton, envelope, and bag and sack manufacturing. Whether lid-mount or wall-mount versions, or on Nordson’s adhesive system console, the system offers flexibility for installations in OEM machines or to retrofit existing production lines.

A 5:1 air-to-fluid ratio delivers precise application when paired with LA 380 pressure regulators. High flow rates allow use of lower pressure, reducing risk of adhesive shearing. LA 380 regulators do not need drain pipes, hoses or glue chambers to relieve glue pressure making it possible to place regulators close to the applicators.

LA 310 pumps and LA 380 pressure regulators use no Teflon® seals or parts and the lubricating oil is U.S. Food and Drug Administration approved, making the pumps acceptable for use in food and tobacco industries.

* Teflon is a registered trademark of E.I. DuPont de Nemours and Company.

### Specifications

**LA 310 Piston Pumps**

- **Maximum Pump Rate**: 48 l/hr (12.6 gal/hr)
- **Maximum Adhesive Pressure**: 30 bar (435 psi)
- **Ambient Temperature**: 1 to 50° C (33 to 122° F)
- **Air-to-fluid Pressure Ratio**: 5:1
- **Weight**: 11.4 kg (25 lbs)
  - 13.3 kg (29 lbs) on lid without regulator

**LA 382 Pressure Regulator**

- **Control Air Pressure**: 0 to 6 bar (0 to 85 psi)
- **Ambient Temperature**: 1 to 50° C (33 to 122° F)
- **Output Pressure Range**: 0 to 18 bar (0 to 250 psi)
