Easy 5-Step Setup
Follow these steps to install the barrel holder.

1. Loosen thumbscrew and slide T-nut assembly into slot on work panel.

2. Insert flex arm into channel of accessory mount.

3. Orient the arm properly:
   a. For 5cc, 10cc or 30cc syringe barrels, orient the arm so that thumbscrew on syringe barrel holder is on the right.
   b. For 3cc or 55cc syringe barrels, twist the arm and orient it so that thumbscrew on syringe barrel holder is on the left.

4. Tighten T-nut thumbscrew to secure arm to work panel.

5. Loosen thumbscrew on syringe barrel holder. Insert syringe barrel. Tighten thumbscrew to secure.
