| Servo-Flo 105-HV | - Two component  
                  - High volume dispense  
                  - Dual servo motor drive  
                  - Volumes up to 690 cm³ |
| See-Flo 488    | - Two component  
                  - High volume dispense  
                  - Air-over-oil drive   
                  - Volumes up to 1,400 cm³ |
| Servo-Flo 801  | - Two component  
                  - Low volume dispense    
                  - Servo motor drive     
                  - Volumes up to 25 cm³  |
| Angstrom       | - Two component  
                  - Extremely low volumes  
                  - Servo motor drive     
                  - Volumes from .025 cm³ |
