Concrete Dispensing Equipment

Dispensing Equipment for Concrete Sealants and Adhesives Manufactured by Nordson SEALANT EQUIPMENT

Nordson SEALANT EQUIPMENT has been providing engineered dispensing systems since 1967. Our rugged line of dispensing systems are ideal for the concrete construction industry for improved and professional results.

- **Our 1-Part and 2-Part dispensing systems** apply sealants and adhesives for commercial and residential construction projects.

- **Sealant and Adhesive Materials** are dispensed using Sealant Equipment manufactured Pumps, Meters and Applicators. Unitized Equipment Packages are available for dispensing all 1-Part and 2-Part sealants and adhesives.

- **Engineered Systems and Packages** are developed using our standard products and assembling them in a unique way to meet your necessary requirements and specifications.

- **Concrete Sealant and Bonding Materials Include:**
  - 1-Part and 2-Part Silicones
  - 1-Part and 2-Part Polyurethanes
  - 1-Part and 2-Part Epoxies

**Applications:**
- Commercial
- Residential
- Highways
- Runways
- Tunnels
- Sidewalks
- Parking Decks
- In-Ground Pools
- Concrete Floors
- Concrete Walls
- Windows
- Doors
