127 Snuf-Bak series
One-component dispense valve

Single spool, piston actuated material valve

* Standard aluminum body

Application solutions
- 1-component materials
- Aircraft and aerospace
- Appliance
- Automotive
- Battery
- Construction
- Electronics and electrical
- Filters
- Lighting and LED
- Solar and wind power

Benefits
- Longer lifespan
  - Wear-resistant seals and hardened components
  - Unrestricted internal design allows for the free flow of high viscosity materials
  - Divorced design separates fluid components from air components
- Quality dispensing
  - Adjustable piston stroke allows for Snuf-Bak control
  - Snuf-Bak feature creates immediate material shut off
- Exact consistency
  - Short stroke length produces immediate on/off control of materials being dispensed

Features
- Adjustable PTFE packings provide extended life
- Available in round and square body styles
- Hardened and ground spool
- Unique design allows for easy maintenance
- Locating holes for dowel pin mounting
- Easy repeatable mounting for automation platforms
- Available in all stainless steel
- Multiple seal configurations are available
Nordson expertise is always here when you need it

In highly competitive manufacturing markets, productivity is vital and performance is essential. That’s why we apply both to everything we do, whether it’s our products, expertise or outstanding customer service. We’ll always be there to help maintain the new standards you’ve set, with expert local service and support delivered through our teams working across the globe.

This unique Nordson approach helps you reach new levels of production, while working more accurately, efficiently and competitively than ever. Precisely why manufacturers who demand quality, can rely on Nordson.

Frequently used models**

<table>
<thead>
<tr>
<th>Model</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>7425061</td>
<td>Lightweight aluminum and steel with 1/4&quot; F NPT outlet. 3,500 psi max fluid pressure.</td>
</tr>
<tr>
<td>7425112</td>
<td>Lightweight aluminum and steel with 1/4&quot; F NPT outlet. 4,000 psi max fluid pressure.</td>
</tr>
<tr>
<td>7425644</td>
<td>Compatible stainless steel fluid body with 1/4&quot; F NPT outlet. 3,500 psi max fluid pressure.</td>
</tr>
</tbody>
</table>

* Consult your Nordson representative with application specifics for accurate valve capabilities.
** Many additional models and options are available.
